

3.4.20

LO: To consolidate knowledge of equivalent, mixed number and improper fractions.

Today, I would like you to PLAY SOME MATHS GAMES! Yes, that's right, a genuine excuse to have extra screen time to play some maths games. Below are some links to tablet-friendly games that will help you to practice what you have learnt so far about fractions.

Fraction Match: The levels do go up in difficulty, so have a couple of goes at the easier levels to get the hang of what you have to do, then challenge yourself by increasing the difficulty.

https://phet.colorado.edu/sims/html/fraction-matcher/latest/fraction-matcher_en.html

Fraction Fiddle: A fraction game where you need to meet orders in a cake shop. Match customer orders written as fractions to cakes that have been cut into segments.

<http://www.scottle.edu.au/ec/viewing/L2801/L2801/index.html#>

Fractions and equivalent fractions: Start at level 1 and as you find the correct answers you will be moved through the levels.

Remember to also keep playing TT Rock Stars. Thank you to those of you who have challenged me - I have completed my challenge and have become even quicker at my tables as a result! Those of you who login regularly will have noticed that I have challenged you all back...let me see what you're made of! Haha!
