

25th November 2021

Dear Parents,

Autumn Letter 18 - Autumn Term 2021 - 2022

Covid-19 Update 7

Many thanks to all who have taken PCR tests this week. The Local Outbreak Team continue to advise the following: ***'If you think your child is a close contact but has not been contacted directly by NHS Test and Trace then they should take a PCR test'***. I am keeping you informed of the situation as it develops, enabling you to be able to book and take a PCR test if there is a known case in your child's class. Please also book a PCR test if you have a positive Covid case in your immediate family. We are seeing that the LFT are not always identifying positive cases, with some pupils testing negative on LFTs and subsequently positive with a PCR test, so please do book a PCR test just to be on the safe side.

Today's numbers are as follows:

Willow- 6 pupils

Rowan- 6 pupils plus 1 member of staff

Hazel- 4 pupils plus 1 member of staff

Oak- 11 pupils

Ash- 0 pupils 0 members of staff

Cedar- 3 pupils plus 1 member of staff

Maple- 0 pupils 0 members of staff

Elm- 2 pupils

**Please note these are the reported and confirmed cases*

After School Clubs

We are continuing to offer sports clubs after school as these are in key stage groups and take place outdoors. The next step on our Outbreak Management Plan would be to cancel these clubs. Pupils attending wrap around care are now arranged in class groups (separate tables) within their wider key stage groups.

Enhanced Cleaning

Since our initial Covid cases were reported we have implemented enhanced cleaning procedures. I am currently investigating the rental of a 'fogging' machine so that all classrooms can be sanitised with this device daily.

Home Learning

Well done to the pupils who are completing their learning this week via Seesaw. We are very impressed with what you have been doing and submitting. Keep up the good work! Thank you to the staff for uploading the work to Seesaw as well as delivering the curriculum in school too.

The following information was also included in the Warn and Inform Letter:

What to do if your child develops symptoms of coronavirus (COVID-19) or tests positive for COVID-19

If your child develops symptoms of coronavirus (COVID-19), they should get a PCR test and remain at home at least until the result is known. If negative, the child can end self-isolation; if positive, the child should isolate until at least 10 days after their symptoms appeared. Symptoms of coronavirus (COVID-19) are a new, continuous cough, or a high temperature, or a loss of, or change in, their normal sense of taste or smell (anosmia). If the child has a positive test result but do not have symptoms, they should stay at home and self-isolate for 10 days from the date the positive test was taken. This isolation period will be extended if they go on to develop symptoms by counting 10 full days from the day following their symptom onset. Anyone with symptoms will be eligible for a PCR test (the normally available test type) and this can be arranged via [Get a free PCR test to check if you have coronavirus \(COVID-19\) - GOV.UK \(www.gov.uk\)](https://www.gov.uk) or by calling 119.

It is a recommendation by the LORT team for all adults to wear face-coverings during busy times of the day, so please do so when dropping off your child and when collecting from school.

Kind regards
