

Collaborating for Success

KS1 Maths Letter

12th September 2017

Dear Parents, Family and Friends,

Maths Workshop and Cafe

You are all warmly invited to attend the KS1 Maths Workshop and Maths Café on Tuesday 19th September at 1.45pm. At the workshop we will be using practical resources to demonstrate a range of fun and engaging different ways in which you can help your children at home with maths, and to become confident thinking mathematicians. A pack of resources will be available for £1. Following this session, the children will be organising and running a maths café. This is an important part of our maths curriculum as it provides an opportunity for the children to think about enterprise, experience a real purpose for maths and handle money in a real life context. Please bring lots of change!

Maths meets Art

On Friday 13th October Ian Brealey will be running workshops for the children linking maths and art. Ian is a professional Cartoon Wall artist and runs a company called The Doodle Bug (www.thedoodlebug.net). He has worked with over 220 schools nationwide leading workshops, and Growth Mindset Assemblies. We are really looking forward to his visit and we are asking for a small contribution to cover the cost.

We are all very passionate in school about making maths an exciting and creative subject and really value your support in this endeavour.

Please complete the attached reply slip and return by Friday 15th September 2017.

Best Wishes

Mrs Smith, Mrs Marshall, Mrs Pasmore and Miss Cornelius

KS1 Maths Workshop and Maths meets Art Session

Child/ren's Name:

Class:

I / we will be attending the workshop and would like to a resource pack £1
