NJK Sport

Celebrating Sporting Success!

We are incredibly proud of the pupils who have recently represented our school in local sporting competitions. Their enthusiasm, determination and excellent sportsmanship have been a credit to our school community.

District Cross Country Success

On Tuesday 13th October, four school teams took part in the District Cross Country Competition. All pupils showed tremendous resilience and determination as they tackled the challenging course against strong competition from schools across the district.

We are delighted to announce that Josh B, Isabella E and Harry D have all qualified for the County Cross Country Competition following their outstanding performances. A special congratulations also goes to Arabella W, who has been selected as first reserve for the county event.

This is a fantastic achievement, and we wish all of our qualifying runners the very best of luck in the next stage of the competition.

Striking Success at Tenpin Bowling

A team of pupils proudly represented the school at a Tenpin Bowling Competition on Tuesday 20th October. The children demonstrated excellent teamwork, encouragement and determination throughout the event, enjoying the opportunity to compete against other local schools.

A special congratulations goes to Romy, who achieved the remarkable score of over 100 points and was awarded a special certificate in recognition of this achievement.

Well done to all the pupils who took part. We are extremely proud of the way you represented our school and embodied our values both on and off the sporting field.

Together, with the love and joy of God, we continue to discover, develop and maximise our unique potential.

NJK Pupils Create an Eco-Area at Worcestershire Parkway!

Pupils from Norton Juxta Kempsey CE Primary School have played a role in creating a wonderful new Community Eco Area at Worcestershire Parkway Station.

Earlier this year, around 100 pupils from four Worcestershire schools took part in wildlife workshops, sharing their ideas and creating designs inspired by nature. These designs have now been transformed into beautiful features across the eco area, including carved benches, footbridges and information signage.

On 24th September, eight pupils from the participating schools were invited to visit the newly completed space and see their artwork brought to life. It was a special moment for our children as they discovered how their creativity had helped shape an area that can be enjoyed by visitors, families and wildlife alike for years to come.

One of our pupils said:

"I feel very proud of my designs because they are at Worcestershire Parkway."

The exciting project has created a welcoming space that celebrates local wildlife and biodiversity. The area now features wildlife information boards, a fingerpost, a natural log seat and impressive willow-woven wildlife sculptures. Future plans include additional tree and hedgerow planting, a bug hotel and outdoor learning resources.

What makes this project so special is that the children's ideas were placed at the heart of its design. Their imagination, creativity and care for the environment have helped create a lasting legacy for the wider community.

A huge well done to everyone who took part. We are thrilled that our pupils have had the opportunity to contribute to such a meaningful project and leave their mark on a space that will inspire learning, wellbeing and wildlife for many years to come.
